

EUROPEAN ROTORS DIGITAL SERIES

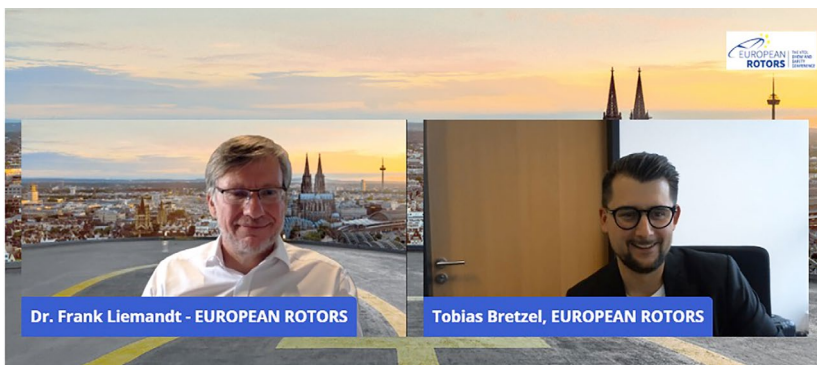

Discussing challenges, trends and latest innovations of the rotorcraft and VTOL sector.

With the EUROPEAN ROTORS digital series we want to keep the community connected, provide educational content and offer knowledge transfer on a regular basis while personal gatherings are limited at the moment.

Join us online as we cover the most relevant topics in panels, presentations or interviews through the EUROPEAN ROTORS digital series, until we finally all meet face to face for EUROPEAN ROTORS from 16 – 18 November 2021 in Cologne, Germany.

The sessions will be recorded via [Streamyard](#) and edited by our team before they go online.
